

FUNPICS SINGAPORE

CORPORATES | WEDDINGS | EVENTS | LAUNCHES

SINCE 2014

ABOUT US

Photobooths have become a common sight at celebrations compared to ten years ago. Nowadays they are part of events like dinner and dance, company meetings and even weddings.

FunPics was originally founded in November 2014 as a sole proprietor and then privatized on November 2017 (201734492D). Over the years, we have fulfilled more than 1,100 bookings for dinner and dance, product launches, weddings and concerts for our esteemed clients.

We can commit to a maximum of 12 bookings per day! However, please be reminded that during peak dates we can be fully booked for at least three months. So, if you're on the ground doing your research, please find out if your event coincides with those peak dates in your calendar, or check with your venue organizer to avoid disappointments.

Most of our clients book as early as nine months to a year after their initial conversation with us.

In terms of company strength, we have slightly above 60 staff ready to be deployed. Our staff are hand-picked to ensure they have the right mentality before going through various hands-on, engagement and OJT training. We also ensure they are both physically and mentally ready before sending them to facilitate a show with other senior staff.

You will be thinking, "Why do so much?" Yes, being well prepared is our virtue.

We monitor movement within our industry regularly, and over the years we have heard really bad reviews from other clients on forums and Facebook pages. Thus, we learn from people's mistakes and try to avoid making the same mistake again.

COVID-19 - THE NEW NORM WORLDWIDE

The current pandemic has affected Singapore economically and affected individuals and end consumers from various stages of their celebratory planning in the events sector.

We have not paused our workflow. We still book venues, reconsider vendors, grow consistently, and look for ways to protect stakeholders like yourself and ourselves.

We have implemented safety guidelines since late February to early March.

- Declaration of social and work visits from our staff and their family members.
- Reimbursement of salary for all staff if they do not feel well.
- Social distancing.
- Disinfecting props and systems.
- Removal of props that are wearable (masks, hats and spectacles).

We have enhanced additional safety measures recommend by the government too.

- Declaration of social and work visits from our staff and their family members.
- Reimbursement of salary for all staff if they do not feel well.
- Social distancing with markers onsite.
- Self-disinfecting props and systems.
- Removal of props that are wearable (masks, hats and spectacles).
- Special SDST coating on all systems and props.

FUNPICS
SINGAPORE

We are the only photobooth company in Singapore that has acquired the SDST coating agent due to global shortage. This product is widely reported in all news platforms as effective against COVID-19. Each application will last approximately three months making it semi permanent coating on surface applied.

Studies were done at Changi International Airport. With high traffic usage, the agent lasted three months.

CHOOSING THE “RIGHT” VENDOR

There are hundreds and thousands of vendors providing photo-booth services locally. This is due to the low capital involved in starting your own photography business—just buy a simple iPad and a Canon SELPHY printer and you are good to go!

Good vendors use DSLR or other capturing devices best suited to a high-speed photo printer. This is what generally sets apart the good and bad vendors.

Additionally, many freelancers are using good quality printers nowadays. However, it is important to note that there are some business owners who use dubious equipment in their shoots. Therefore, it has become

increasingly challenging to select the right vendor for an “effortless” entertainment such as photobooth (especially for the general public that has limited knowledge of what to lookout for).

Over the years, we have served more than a thousand clients and there are many horror stories or experiences that we have heard from our clients like the examples below:

- The Invisible Vendor – A vendor that went MIA after a deposit.
- Sleeping Beauty Vendor – Onsite staff were sleeping.
- The Colour Blind Vendor - Colour composition off the chart making guests look yellowish or greyish.
- The “Tilum Por” (Mattress Cover) Vendor – Bad positioning of camera frame and crumpled backdrop.
- ICU Vendor – The kind of vendor that does not respond to you. You see them in action when soliciting business, but once you’ve signed the deal with them, they do not reply to you when you require their assistance.

So how
do you
choose
a vendor
that best
suits
your
needs?

OUR PACKAGE

Shown below is a list of our packages and their popularity over the years. This chart will help you better understand your desires. Some are more popular than others and some are less taken up due to space constraints. We grade them based on 0-3 stars.

1

WHATSSAPP INSTANTPRINT

Official approval by MTI Singapore

Most popular package during this COVID-19 period when Social Distancing is put in place by MTI whereby Traditional Photobooth can no longer be offered for Weddings & Events until Social Distancing eased.

Guest will simply scan our QR code and send in their photos to be printed. It's that easy! Now everyone (guest) will be your photographer!

Step 1: Scan our QR Code

Step 2: Send us your photo

Step 3: Collect from us
